GETTING STARTED KEY FOB Locking And Unlocking The Doors/Liftgate • Press the LOCK button once to lock all the doors and the liftgate. Press the UNLOCK button once to unlock the driver’s door only and twice within five seconds to unlock all the doors and liftgate. GETTING STARTED Panic Alarm • Press the PANIC button once to turn the panic alarm on. • Wait approximately three seconds and press the button a second time to turn the panic alarm off. Power Liftgate • Press the LIFTGATE button twice within five seconds to power open/close the Power Liftgate. GETTING STARTED SEAT BELT • Be sure everyone in your vehicle is in a seat and using a seat belt properly. WARNING! In a collision, you and your passengers can suffer much greater injuries if you are not properly buckled up. You can strike the interior of your vehicle or other passengers, or you can be thrown out of the vehicle. Page 13 GETTING STARTED • Place the child upright in the seat with their back firmly against the seatback. • Grasp the latch plate and pull out the seat belt. • Slide the latch plate up the webbing as far as necessary to allow the seat belt to go around the child’s lap. Page 14 GETTING STARTED Installing The Top Tether Strap (With Either Lower Anchors Or Vehicle Seat Belt): • Route the top tether strap under the adjustable head restraint between the steel posts. • Provide enough slack for the tether strap to reach the tether anchor located near the bottom of the seat back. Page 15 GETTING STARTED Installing The Child Restraint Using The Vehicle Seat Belts • To install a child restraint, first, pull enough of the seat belt webbing from the retractor to route it through the belt path of the child restraint and slide the latch plate into the buckle. GETTING STARTED FRONT SEATS WARNING! Adjusting a seat while the vehicle is moving is dangerous. The sudden movement of the seat could cause you to lose control. The seat belt might not be properly adjusted, and you could be severely injured or killed. Only adjust a seat while the vehicle is parked. Page 17 GETTING STARTED Manual Lumbar Adjust Lever • Rotate the lumbar adjust lever downward to increase the support or upward to decrease the support. Eight-Way Driver And Passenger Power Seat • The recline switch, located on the outboard side of the seat, controls seatback adjustment. GETTING STARTED • To program a Key Fob to the memory position, press and release the LOCK button within 10 seconds on the Key Fob to be programmed. • Place the ignition switch in the ON position, select Remote Linked to Memory in the Electronic Vehicle Information Center (EVIC) and enter Yes. GETTING STARTED WARNING! • Persons who are unable to feel pain to the skin because of advanced age, chronic illness, diabetes, spinal cord injury, medication, alcohol use, exhaustion or other physical conditions must exercise care when using the seat heater. It may cause burns even at low temperatures, especially if used for long periods of time. GETTING STARTED ADJUSTABLE PEDALS • Press the switch located on the left side of the steering column forward to move the brake and accelerator pedals away from the driver and press the switch rearward to move the pedals closer to the driver. NOTE: The pedals cannot be adjusted when the vehicle is in REVERSE or when the Electronic Speed Control is set. Page 21 GETTING STARTED Key Fob Programmable Features • The following features may also be programmed by using the Key Fob transmitter or the ignition switch and driver’s door lock switch. NOTE: Pressing the LOCK button while you are inside the vehicle will activate the Vehicle Security Alarm. Page 22 GETTING STARTED Sound Horn With Lock • To turn the horn chirp on or off when the doors are locked: • Press the LOCK button for at least 4 seconds, but no longer than 10 seconds. Then, press the PANIC button while still holding the LOCK button. •... OPERATING YOUR VEHICLE TURN SIGNAL/WIPER/WASHER/HIGH BEAM LEVER Turn Signal/Lane Change Assist • Tap the lever up or down once and the turn signal (right or left) will flash three times and automatically turn off. • Vehicles equipped with Blind Spot Monitoring may be programmed to add a visual alert when signaling a lane change;... OPERATING YOUR VEHICLE Rear Washer • Rotate the center portion of the lever past the first detent to activate the rear washer. High Beams • Push the lever away from you to activate the high beams. • A high beam symbol will illuminate in the cluster to indicate the high beams are on. NOTE: For safe driving, turn off high beams when oncoming traffic is present to prevent headlight glare and as a courtesy to other motorists. OPERATING YOUR VEHICLE Overhead (Halo) Light • Halo lights are strategically placed soft lighting that help illuminate specific areas while driving at night. • Push the button to turn ON/OFF the overhead (halo) lighting. SPEED CONTROL LEVER Cruise ON/OFF • Push the ON/OFF button to activate the Speed Control. OPERATING YOUR VEHICLE Resume • To resume a previously selected speed in memory, push the lever up and release. Cancel • Pull the lever toward you or apply the brakes to cancel the set speed and maintain the set speed in memory. •... OPERATING YOUR VEHICLE MANUAL CLIMATE CONTROLS Air Recirculation • Use recirculation for maximum A/C operation. • For window defogging, turn the recirculation button off. • Recirculation is not allowed in defrost, floor, defrost/floor (mix) modes. FRONT THREE ZONE MANUAL CLIMATE CONTROLS... Page 28 OPERATING YOUR VEHICLE Air Recirculation • Use recirculation for maximum A/C operation. • For window defogging, turn the recirculation button off. • Recirculation is not allowed in defrost, floor, defrost/floor (mix) modes. Rear Window Defroster • Pressing the rear window defroster button will turn on the defroster for approximately 10 minutes. OPERATING YOUR VEHICLE Activating Rear Passenger Climate Controls • Rotate the rear blower control, located on the main climate control in the instrument panel, to the “RR” position. This enables the rear passenger climate controls located in the headliner above the second row seats. FRONT THREE ZONE AUTOMATIC TEMPERATURE CONTROLS (ATC) Page 30 OPERATING YOUR VEHICLE Automatic Operation • Push the AUTO mode button to activate the ATC system. • Select the desired temperature by rotating the temperature controls for the driver or passenger. • The system will maintain the set temperature automatically. Air Conditioning (A/C) •... OPERATING YOUR VEHICLE Activating Rear Automatic Temperature Control • Pressing the REAR LOCK button for the Rear ATC System from the front lower ATC panel, illuminates a LOCK symbol in the rear display. The rear temperature and air source are controlled from the front lower ATC panel. •... OPERATING YOUR VEHICLE REAR CROSS PATH WITH BLIND SPOT MONITORING • The Blind Spot Monitoring (BSM) system warning light, located in the outside mirrors, will illuminate if a vehicle moves into a blind spot zone. • The BSM system can also be configured to sound an audible (chime) alert and mute the radio to notify you of objects that have entered the detection zones. OPERATING YOUR VEHICLE ® STOW ’N GO SEATING • Move the front seat fully forward. Lower the head restraints and raise the armrests on the second row seat. • Slide the storage bin locking mechanism to the “LOCK” position and then pull up on the storage bin latch to open the cover. OPERATING YOUR VEHICLE SWIVEL N’ GO™ SEATING WITH TABLE To Swivel The Seats • Pull the lower handle on the outboard side of the seat and push the side of the seatback to begin rotation. Once the seat begins to rotate, the handle may be released. OPERATING YOUR VEHICLE To Remove The Seats • Remove any obstructions from the floor behind the seat, and stow the third row seat. • Pull up on the release bar located at the bottom front edge of the swivel seat. •... OPERATING YOUR VEHICLE POWER LIFTGATE • The power liftgate may be opened and closed by pressing the button on the Key Fob or the button located on the overhead console. Press the button once to open, and a second time to close the power liftgate. •... OPERATING YOUR VEHICLE Manual Open/Close • Press and hold the switch rearward to open or forward to close the sunroof. Any release of the switch will stop the movement, and the sunroof will remain in a partially open or closed position until the switch is pressed again. Venting Sunroof •... ELECTRONICS NON-TOUCH-SCREEN RADIOS Media Center 130 (RES) Media Center 130 (RES/RSC) Page 39 ELECTRONICS NOTE: Uconnect™ Phone and Voice Command are vehicle options which must be ordered separately. The buttons on the radio will only be active if the vehicle has been equipped with the option. • Your radio has many features that add to the comfort and convenience of you and your passengers. ELECTRONICS TOUCH-SCREEN RADIOS Navigation Radio – Sales Code RER Multimedia Radio – Sales Code RBZ... Page 41 ELECTRONICS NOTE: Uconnect™ Phone and Voice Command are vehicle options which must be ordered separately. The buttons on the radio will only be active if the vehicle has been equipped with the option. • The radio sales code is located on the lower right side of the radio faceplate. •... Page 42 Navigation Technologies . Not all roads are digitized. • For software updates, visit website, visit website, or contact your authorized dealer for the latest available software. NOTE: Many features of this radio are speed dependent. For your own safety, it is not possible to use the touch-screen keyboard to enter a name (e.g., street name) Page 43 ELECTRONICS New Destination • Press the NAV hard-key to access the Navigation Main Menu. • Touch the NEW DESTINATION soft-key to program a destination, then select the destination soft-key of your choice. Program/Storing Home Address • Press the NAV hard-key to access the Navigation Main Menu. •... ELECTRONICS STEERING WHEEL AUDIO CONTROLS • The remote audio controls are located on the rear surface of the steering wheel. Right Switch • Press the switch up or down to increase or decrease the volume. • Press the button in the center to change modes AM/FM/CD/SAT. Page 45 ELECTRONICS Operation Of The Touch-Screen Radio/DVD Player • To view a DVD press the OPEN/CLOSE hard-key on the touch-screen radio and insert the disc or insert the disc into the optional DVD player. Playback will begin automatically after the DVD is recognized by the disc drive. If playback does not begin automatically when the disc is inserted into the DVD player press the PLAY button. ELECTRONICS UNIVERSAL CONSUMER INTERFACE ® • This feature allows you to plug an iPod into the vehicle’s sound system through a 16–pin connector using the provided interface cable. • The 16–pin connector port is located in the glove box or on the center console. Location may vary. ELECTRONICS ® UNIVERSAL GARAGE DOOR OPENER (HomeLink ® Programming HomeLink Begin Programming ® • The HomeLink buttons are located in the overhead console. • Erase all channels before you begin programming by holding the two outside buttons for up to 20 seconds until the red indicator flashes. ELECTRONICS Programming A Rolling Code System • At the garage door opener motor (in the garage), locate the “learn” or “programming” button. This can usually be found where the hanging antenna wire is attached to the garage door opener motor (it is NOT the button normally used to open and close the door). ELECTRONICS WARNING! To Avoid Serious Injury or Death: Do not use a three-prong adaptor. Do not insert any objects into the receptacles. Do not touch with wet hands. Close the lid when not in use. If this outlet is mishandled, it may cause an electric shock and failure. POWER OUTLETS •... Page 50 ELECTRONICS ® Bluetooth Hands-Free Profile, Version 0.96 or higher. For Uconnect™ customer support, call 1–877–855–8400. Phone Pairing NOTE: Pairing is a one-time initial setup before using the phone. You will also need ® to follow the Bluetooth instructions in your cell phone user guide to complete the phone pairing setup. ELECTRONICS Transfer Ongoing Call Between Handset And Vehicle • During a call, press the Voice Command button • (After the BEEP), say “transfer call”. Changing The Volume • Start a dialogue by pressing the Phone button , then adjust the volume during a normal call. UTILITY Cargo Area Storage IN-FLOOR STORAGE – ® • The liftgate sill plate has a raised line STOW N’ GO with the statement “Load To This Second Row Seat Storage Line”. This line indicates how far Bins rearward cargo can be placed without interfering with liftgate •... UTILITY... UTILITY • Remove the cover located to the RECREATIONAL TOWING top right of the shift lever in the (BEHIND MOTORHOME, instrument panel. ETC.) • The override can be activated by pressing the white-colored tab, CAUTION! which can be accessed through the hole in the instrument panel. WHAT TO DO IN EMERGENCIES 24-HOUR TOWING ASSISTANCE - U.S. ONLY • Dial toll-free 1-800-521-2779 or 1-800-363-4869 for Canadian residents. • Provide your name, vehicle identification number and license plate number. • Provide your location, including telephone number, from which you are calling. •... Page 56 WHAT TO DO IN EMERGENCIES • When the malfunction indicator is illuminated, the system may not be able to detect or signal low tire pressure as intended. TPMS malfunctions may occur for a variety of reasons, including the installation of replacement or alternate tires or wheels on the vehicle that prevent the TPMS from functioning properly. Page 57 WHAT TO DO IN EMERGENCIES WARNING! Driving a vehicle with the red brake light on is dangerous. Part of the brake system may have failed. It will take longer to stop the vehicle. You could have an accident. Have the vehicle checked immediately. - Malfunction Indicator Light (MIL) •... WHAT TO DO IN EMERGENCIES - Electronic Throttle Control (ETC) Light • This light informs you of a problem with the Electronic Throttle Control (ETC) system. • If a problem is detected, the light will come on while the engine is running. Cycle the ignition when the vehicle has completely stopped and the shift lever is placed in the PARK position;... Page 59 WHAT TO DO IN EMERGENCIES NOTE: There are steps that you can take to slow down an impending overheat condition: • If your air conditioner (A/C) is on, turn it off. The A/C system adds heat to the engine cooling system and turning the A/C off can help remove this heat. •... WHAT TO DO IN EMERGENCIES JACKING AND TIRE CHANGING WARNING! • Do not attempt to change a tire on the side of the vehicle close to moving traffic. Pull far enough off the road to avoid being hit when operating the jack or changing the wheel. Page 61 WHAT TO DO IN EMERGENCIES Spare Tire Stowage • The spare tire is stored inside a protective cover located under the center of the vehicle by means of a cable winch mechanism. • Using the provided tools, lower the spare tire by turning the “spare tire drive”... Page 62 WHAT TO DO IN EMERGENCIES Preparations For Jacking • Park on a firm, level surface. Avoid ice or slippery areas. • Set the parking brake and shift the transmission into PARK. • Turn the ignition to LOCK and turn on the Hazard Warning flasher. •... Page 63 WHAT TO DO IN EMERGENCIES • Place the jack: • Rear jack locations are between a pair of down-facing tabs on the sill flange of the vehicle side body. • Front jack locations are on the sill flange of the vehicle side body and align with front door edges. WHAT TO DO IN EMERGENCIES • Finish tightening the lug nuts. Push down on the wrench while tightening for increased leverage. Alternate nuts until each one has been tightened twice. The correct wheel nut tightness is 95 ft lbs (130 N•m). If in doubt about the correct tightness, have them checked with a torque wrench by your authorized dealer or at a service station. Page 65 WHAT TO DO IN EMERGENCIES NOTE: When using a portable battery booster pack follow the manufacturer’s operating instructions and precautions. CAUTION! Do not use a portable battery booster pack or any other booster source with a system voltage greater than 12 Volts or damage to the battery, starter motor, alternator or electrical system may occur. Page 66 WHAT TO DO IN EMERGENCIES CAUTION! Failure to follow these procedures could result in damage to the charging system of the booster vehicle or the discharged vehicle. • Connect the positive (+) end of the jumper cable to the positive (+) post of the discharged vehicle. WHAT TO DO IN EMERGENCIES... WHAT TO DO IN EMERGENCIES FREEING A STUCK VEHICLE • If your vehicle becomes stuck in mud, sand or snow, it can often be moved by a rocking motion. Turn your steering wheel right and left to clear the area around the front wheels. WHAT TO DO IN EMERGENCIES EVENT DATA RECORDER (EDR) • This vehicle is equipped with an event data recorder (EDR). The main purpose of an EDR is to record, in certain crash or near crash-like situations, such as an air bag deployment or hitting a road obstacle, data that will assist in understanding how a vehicle’s systems performed. MAINTAINING YOUR VEHICLE OPENING THE HOOD • Pull the hood release lever located on the instrument panel, below the steering column. • Raise the hood and locate the safety catch lever, in the middle of the hood opening. • Move the safety latch while lifting the hood at the same time. •... Page 71 MAINTAINING YOUR VEHICLE WARNING! • Never have any smoking materials lit in or near the vehicle when the gas cap is removed or the tank filled. • Never add fuel when the engine is running. This is in violation of most state and federal fire regulations and will cause the MIL to turn on. MAINTAINING YOUR VEHICLE... Page 73 MAINTAINING YOUR VEHICLE... Engine Oil with Filter API certified 5W-20 engine oil, 5 Quarts (4.7 Liters) 3.3L, 3.8L meeting the requirements of Chrysler Material Standard MS-6395.
